

Mike Honour — Windows LTD —

Incorporating Lattice Period Windows

Mike Honour Windows Ltd

Mike Honour Windows Ltd was established 40 years ago. Mike began with Jeff and his brothers Ken and Andy, who are still working with the company today.

All steel windows and doors are made in our factory, by our foreman Pete Jordan and his dedicated team.

We specialise in the refurbishment of Grade 1 & Grade 2 listed properties, these are carefully refurbished and reassembled, all leaded lights are carefully remade or restored by our skilled team.

Refurbishment

A beautiful grade 2 listed house where we carried out the refurbishment of their steel windows. We remade and reused glass into traditional leaded lights by our in-house leaded light maker.

Steel Doors and Screens

Bespoke steel doors and screens to add a contemporary feel to any home, are shown off beautifully in this home in Gloucestershire. All constructed from W20 section powder coated in RAL colours to suit your requirements. (Photographs shown in RAL 9005 Black). We have a range of door ironmongery in different finishes to choose from.

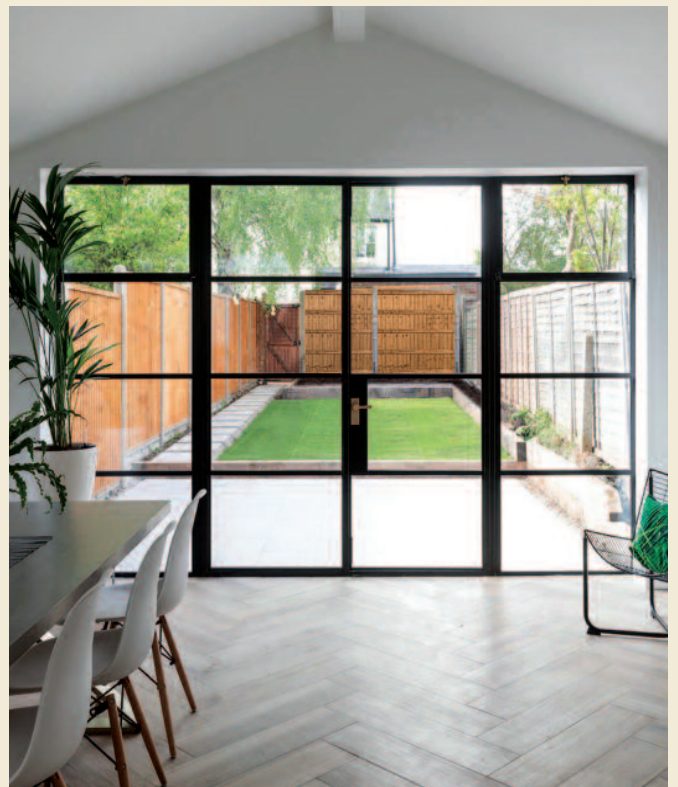

In 2021 we completed a commercial project in Gloucestershire, we manufactured all the external steel doors for their new Garden Retail, within this beautiful space we created a set of bespoke steel internal doors powder coated White 9016, these were complemented by their own antler handles.

Steel Doors and Windows

We showcased our steel doors and windows on BBC2 “Your Home Made Perfect”. We worked closely with the client and architect Laura Jane Clarke to design and manufacture these stunning doors and windows.

Made from W20 section with tee bars and an opening light in the side screens.

Steel Windows

A grade 2 listed house situated in beautiful surroundings, complemented by our steel windows with small teebars powdercoated white.

Cottage Style and Manor Ogee Timber Frames

Manor Ogee Oak frame treated with Sikksens filter seven with black steel windows set within an Oakwrights house.

Oak cottage style frames with refurbished steel windows incorporating traditional leaded lights.

This charming family home, with our cottage style timber frames with black steels and overleaded units.

Steel Windows

This beautiful artist's cottage, with stone mullion windows and our W20 steel windows with a central tee bar powder coated in RAL 7044.

Steel Doors and Screens

A fabulous project in Oxfordshire for a family home, with sets of arched head steel doors with vertical and horizontal tee bars, powdercoated black (RAL 9005).
